SUMMARY

Enthusiastic and motivated Pre-final year Computer Science and Engineering (Artificial Intelligence & Machine Learning) student at JAIN University, Bangalore. Strong foundation in frontend development with hands-on experience in HTML, CSS, JavaScript, and modern frameworks. Currently expanding skill set towards full-stack development while nurturing a keen interest in Machine Learning, backed by practical experience through ML projects. Eager to contribute technical expertise and a growth mindset to dynamic development teams and real-world projects.

EDUCATION

JAIN University BLR B.Tech CSE with AIML

2023 – 2027
Bangalore

- CGPA: 8.63

Chellammal matriculation boys higher secondary school, class 10 and 12 (2023)

- 90% in 10th
- 90% in 12th

SKILLS

Technical Skills:

Python, HTML, CSS, JavaScript, Git, Github.

Database: MongoDB, NoSQL

Frameworks: Bootstrap, Tailwind CSS

PROJECTS

Designing the smart car for modern farming

2023 – present

- The development of an intelligent agricultural system involves the seamless integration of IOT, AI, and Machine learning to enhance farming efficiency, productivity and sustainability.

Gesture-Control-Suite-with-Virtual-Mouse

2026

- An innovative computer vision-based application that enables users to control mouse operations using hand gestures.
- Utilizing OpenCV and MediaPipe, this project tracks hand landmarks in real-time, allowing for seamless execution of actions like cursor movement, clicks, scrolling, and more without touching the mouse or keyboard.
- It demonstrates the integration of AI, gesture recognition, and human-computer interaction to create a futuristic, touch-free computing experience.

Fake news dectection

2025

- We used Python libraries like scikit-learn and pandas to preprocess data and train a machine learning model.
- HTML and CSS for the frontend user interface.

My Portfolio Website 📄

- I created my own portfolio website using HTML, CSS and JavaScript.

ACHIVEMENTS

- Participated in multiple hackthons and worked in real-time projects.

CERTIFICATES

Certificates:

- AI and Machine learning full course-IBM SkillBuilds.
- Creating Database Tables with SQL-Coursera.
- Introductions to DeveOps-Coursera.
- Computer Networking-Coursera.
- Fundamentals of AI-Udemy.
- Oracle on IBM Power foundational.

LANGUAGES

English(Professional), Tamil(Native)
